## **2017 Central Florida CHMA Coordinated Application Information**

**The schedule for the next coordinated Asian citrus psyllid spray application is as follows:**

1. **Central Florida CHMAs** will make a coordinated spray of a Pyrethroid insecticide on **January 30 to February 6, 2017**. It was decided to identify one main week for CHMA applications, with consideration that some growers may complete applications a few days before or after the designated week.
2. Growers in the Conserv II area will discontinue aircraft applications for 2017 and switch to ground sprayers for added flexibility. Please contact Rex at [wrclonts@yahoo.com](mailto:wrclonts@yahoo.com) for information.
3. **CHMA applications for 2017 will follow the schedule below:**

<b>January 30</b>	<b>Winter dormant—Pyrethroid</b>
<b>April 10</b>	<b>post bloom - OP</b>
<b>June 19</b>	<b>early summer - OP or grower option</b>
<b>Aug. 28</b>	<b>late summer - Pyrethroid</b>
<b>Nov. 6</b>	<b>fall dormant - OP</b>
